Nationality: South African

Personal Summary

I am a recent Information Technology graduate, passionate about emerging technologies and innovation. I have a strong foundation in Java, Python, SQL, and web development. Experienced in designing and implementing RESTful APIs, working with Blazor for frontend development, and leveraging Power BI for data visualization. Strong problem-solving skills, a keen interest in automation, and a commitment to delivering impactful software solutions.

Education

BSc Information Technology – North-West University

(Expected graduation: May 2025)

Skills & Technologies

Programming: Java, C#, JavaScript, SQL, Python, C++

Web Development: Blazor, HTML, CSS

Databases: SQL Server, NoSQL

Cloud & DevOps: Azure (Basic), GitHub CI/CD

Data & Reporting: Power BI, DAX, Data Cleaning & Transformation

Automation & AI: UiPath (RPA), AI Chatbot Integration (ChatGPT, Gemini)

Version Control: Git, GitHub

Experience (Projects)

Blazor & Power BI Developer – NWU Tech Trends (2024)

- Developed a Blazor Web App to manage CRUD operations for project and client data.
- Built a Power BI report to visualize automation benefits, tracking time and cost savings.
- Created calculated measures and AI-powered insights for data-driven decision making.

RPA Developer – UiPath Automation Project (2024)

- Automated the process of creating and validating records on a web application using UiPath.
- Improved testing efficiency by integrating data validation logic into the automation workflow

Certifications & Training

Secure a .NET Web App with ASP.NET Core Identity Framework – Microsoft

Power BI Fundamentals Course - Microsoft

Why Me?

- Strong technical foundation in backend and full-stack development.
- Experience working in Agile teams to deliver impactful solutions.
- Passion for innovation in technology, including AI, automation, and gaming.
- Ability to adapt quickly and learn new technologies to solve complex problems

Additional Information

Availability: Immediately

Work Preference: Full-time, On-site
